Dear Rosemarie:

Thank you for sharing your deeply compelling keynote message at the 78th Texas FFA Convention in Fort Worth last month.

Our teachers and students appreciated not only the riveting account of how your life changed dramatically as a result of your injury, but the application of life lessons learned from that life-altering ordeal. Seamlessly combining humor, personal anecdotes and inspirational illustrations, your address clearly articulated to our audience a practical, real-life, nuts and bolts approach to dealing with the obstacles that all of us encounter in our journey. Our students were challenged to honestly consider the possibilities and potential of their lives, persevere through pain and hardship, refusing to be mired in the morass of self-pity and victimhood. It was a presentation that imparted hope. Our members were fully engaged throughout the duration of the speech--sitting in rapt silence until the dramatic finale of your presentation, which was greeted with a rousing standing ovation.

Thank you for your impeccable, meticulous preparation. We believe that our invested speaker dollars yielded a bountiful return. Please do not hesitate to use this correspondence as a reference for future engagements.

Sincerely,

Tom Maynard
Executive Director
